

THE BEST SAMPLE IS THE ONE YOU ONLY COLLECT ONCE

RAPID-DEPLOYMENT BOTTLE VAC SAMPLING WITHOUT TRADITIONAL CANISTER DELAYS

Why Consultants Use Bottle Vacs

- + No waiting for clean canisters
- + Simple field deployment
- + Defensible TO-15 data
- + Indoor air, soil gas, and ambient air
- + Flexible project scheduling
- + Fast turnaround

We Don't Just Analyze Samples. We Help Teams Make Better Decisions.

Environmental projects are won or lost before the first sample is collected.

Our team works with consultants, contractors, and site owners to evaluate options, identify risks, and select practical sampling approaches that support project objectives, regulatory requirements, and defensible data collection.

The AmSpec Difference

- + Technical experts involved early
- + Support before sampling plans are finalized
- + Flexible sampling technologies
- + Rapid turnaround times
- + Reliable scheduling, even for complex jobs
- + Defensible data for real-world decisions
